Reborn Styrofoam, just like pearl .  
Healing wounds that human do for the nature.

## The birth of circular material

There are over 12,700,000 tons of plastic flow to the ocean each year. Microplastic is everywhere and 75% is from fishery.

Ocean health is closely related to Earth ecosystem. Therefore we dedicate to recycle marine waste to create circular flow. Expecting plastic stay in the city, no longer drifting.

## Source of the material

Recycled marine waste-polystyrene , such as Styrofoam floating ball, insulation container..etc.. Through breakdown, modification to prolong LCA of plastic.
